2026/27 Physics

School plan → Edexcel International A Level

Basis: the original school annual plan and Pearson IAL Physics 2018 specification, Issue 3 (July 2021).

SELECTED TOPIC ALIGNMENT

WEEKS	SCHOOL PLAN FOCUS	SELECTED IAL LINKS	TOPIC JUDGEMENT	NEXT DEVELOPMENT
1–10	**Motion, forces, momentum and moments**	Selected Unit 1 mechanics + Unit 4 momentum	● **Substantial topic match**	Make graph skills and projectile coverage explicit.
11–17	**Energy, work, power and resources**	Unit 1 energy and efficiency	● **Substantial topic match**	Develop angled-force work and quantitative applications.
21–26	**Waves, light, sound and Doppler effect**	Selected Unit 2 waves + Unit 5 Doppler	○ **Partial match**	Add interference, diffraction, polarisation and quantum physics.
27–31	**Density, pressure and hydrostatics**	Unit 1 density; pressure is additional foundation	○ **Partial match**	Add upthrust, viscosity and solid-material mechanics.
31–36	**Conduction, convection and radiation**	Foundation for thermal and radiation study	◇ **Additional foundation**	Do not equate this with Unit 5 thermodynamics.
36–42	**Heat, internal energy and ideal gases**	Unit 5 thermodynamics: 125, 128-130, 132	● **Substantial topic match**	Verify derivations and specified practical methods.
Across year; 43–44	**Practical work, review and examination**	Units 3 and 6 practical skills need explicit evidence	○ **Partial match**	Teach planning, graphs, uncertainty and evaluation throughout.

HOW TO READ THE JUDGEMENT

Substantial: main ideas are explicitly listed.
Partial: further IAL depth or evidence is needed.
Foundation: useful supporting school content.
Planned objectives do not certify assessed mastery.

CURRENT INTERACTIVE SCOPE

16 first-term lessons cover mechanics and energy.
Later annual blocks are course destinations.
A topic title alone does not establish IAL depth, mathematical fluency or practical competence.

FURTHER IAL TEACHING NEEDED

Unit 1 materials; Unit 2 circuits and advanced waves/quantum; remaining Unit 4 and 5 topics; and Units 3/6 practical methods.
No complete IAL unit is certified by this map.
